I have a very wide variety of skills. I was in the Army for 4 years as a 12R Interior Electrician, but mainly construction.

In the Army, I was doing some basic electrical work, carpentry, masonry, security, maintenance on LMTVS, Humvees, Fork Lifts, Dump Trucks, dozers, etc. as well as operating those vehicles daily/weekly.

I also have office/inventory skills with use of all sorts of equipment and tools(Handyman) (I do have a big set of tools) but I have much more knowledge ranging from operating computers/computer softwares, to building houses, pole barns, cement shacks, wooden shacks, 2-3 mile obstacle courses ranging with different materials, I've restored Defacs facilities, conference rooms, a bass pro golf shop, and much more. Ive also done customer service/sales, Front Desk/Maintenance at Holiday Inn Express And Suites, and I have worked for Southern Cross boat works at the Savannah Yacht Center as the lead scaffolder, carpenter, painter, sander/grinder, operator of forklifts, Lowls, scissor lifts, and man lifts. I did the overall restoration of Mega Yachts.

I am now a Professional Film Maker in the Movies and Television industry for the LOCAL 491 IATSE in Savannah GA, where I am a Carpenter who has built major sets.

During the month to 3 month breaks we have, I would love to find reliable work. Especially now during the STRIKE that is happening with the Writers and Actors.

I'm a great guy and great to be around.

I'm ready to get the job done safe, quick, and proficient.

Always ready to learn a new skill.

I'm CLS Certified(Combat life savor)

Interesting Fun Fact about me:

I've saved 2 lives in 2 different situations from drowning.

My phone number is 706-512-1249

Looking very forward to doing business

Willing to relocate: Anywhere

Authorized to work in the US for any employer
